Stanley Gibbons Catalogues

Choosing the right catalogue can be confusing. Stanley Gibbons Catalogue Editor, Hugh Jefferies, offers some guidance

When Stanley Gibbons published his first 'Catalogue and Price List' in 1865, it must have been fairly easy to decide what should go in it. In those days, most collectors collected the whole world and specialisation was a thing of the future.

Now, 145 years later, a lot has changed, both in terms of the number of stamps issued and the way in which we collectors study them.

Every year more and more stamps are being issued around the world, making it ever more difficult for collectors (and catalogue publishers!) to keep up with them. Accordingly, many people have stopped collecting the new issues of a wide range of countries and are opting instead to concentrate on a few that really interest them or that issue a reasonable number of stamps each year. Others have chosen to study in great depth a single country, or even a single issue within that country. Specialist

collectors are even looking at subjects that were widely ignored in the past, such as telegraph and revenue stamps, and of course postal history and thematics have both seen a considerable growth in popularity in recent years.

As it stands, catalogues may be divided by degree of specialisation and by subject covered. Thus, as far as the Stanley Gibbons catalogues are concerned, there are specialised catalogues (for Great Britain only), Comprehensive catalogues (Part 1, Parts 2-22 Foreign catalogues, the Commonwealth Country series, the Great Britain Concise and Collect Channel Islands and Isle of Man Stamps), Straight forward catalogues (Collect British Stamps) and Simplified Catalogues (Stamps of the World, the other Simplified titles and the thematic catalogues). Each group varies slightly in content and considerably in terms of frequency of publication, and of course not every area is covered to every degree of

specialisation-there is currently no individual specialised catalogue of Peru or simplified catalogue of Nepal – it's simply not possible to supply every need at the moment – but we're working on that!

The latest edition of Stanley Gibbons Commonwealth and British Empire catalogue, fondly referred to as 'Part 1' by collectors worldwide, was published in August 2009.

With nearly 700 pages and thousands of colour illustrations listing the stamps and stamp prices for Great Britain and Commonwealth from 1840-1970, this sturdy, case-bound volume is a must for the Commonwealth collector.

Completely reviewed and revised, this new edition accounts for new research and discoveries over the previous twelve months, with

each and every price individually checked and updated in line with the current market.

In this, the 112th edition, there has been an exceptional amount of revision to Commonwealth in Asia, with Africa, the West Indies, Canada, Australian States and New Zealand showing strong growth.

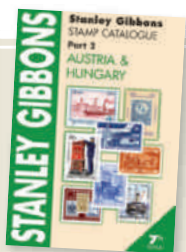

The perennially popular Mediterranean countries and Indian and Atlantic Ocean islands continue to rise in price, while watermark and plate varieties, errors, 'used abroad' cancellations and scarce provisional issues of all periods, especially World War 1, are also

strong. Notable additions include a second 'B' overprint for the British Post Office in Siam, priced notes on Newfoundland imperfs, revisions to South African officials and new printing details for the Pietersburg stamps of Transvaal.

This new edition also lists several new plate flaws including a number on the popular 1935 Silver Jubilee issue.

The extensive price revisions featured in this edition reflect today's flourishing market and probably make this one of the most significant editions of Part 1 for 25 years – definitely not to be missed!

These catalogues provide highly detailed stamp listings for all countries outside of the British Commonwealth. All major varieties are included, notably perforation, watermark and shade variations, overprint types and major errors. They are designed to meet the needs of both less experienced and specialist collectors.

Collect British Stamps

Now in its 61st edition and with 4 million copies having been sold since the first, back in 1967, the 2010 Collect British Stamps has undergone a complete redesign with the addition of several new and useful features.

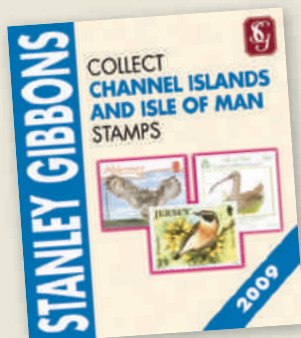

The basic concept of Collect British Stamps remains unchanged however; to provide an easy-to-use, straightforward listing of all Great Britain stamps, from 1840 to the year of publication in a handy book, convenient for taking to stamp fairs and exhibitions.

Collect British Stamps lists all British Stamps issued between 1840 and 2009. In addition to the main listing, the catalogue includes regionals postage dues and departmental officials and there is a separate priced guide to Royal Mail numismatic and metallic covers, not included in any other SG catalogue. The main listings include all stamps with different watermarks, perforations, visible plate numbers and major phosphor formats as well as such useful information as first day cover presentation pack, PHQ card and gutter pair prices.

New features include advice on getting started, a guide to Stanley Gibbons numbers and prices, a brief history of Machines, a Great Britain Stamp Collector's Glossary, an illustrated guide to the listings and a preview of the London 2010 Festival of Stamps.

Collect Channel Islands & Isle of Man Stamps 2009

This checklist provides a comprehensive priced listing of all the stamps from the Independent Postal Administrations of Guernsey (including Alderney), the Isle of Man and Jersey to the end of 2008. Much detailed information is included and the scope incorporates listings for the German Occupation issues, the British Post Office Regional issues, miniature sheets, first day covers, presentation packs, commemorative covers and postcards.

This Channel Islands and Isle of Man catalogue contains detailed information, listing first day covers, presentation packs, stamp cards and gutter pairs. It also gives plate numbers, sheet formats and withdrawal dates.

FREE: Anyone buying this catalogue will receive a free copy of 'An Introduction to Channel Islands Stamps and Postal History', our celebratory booklet marking the 40th anniversary of the Channel Islands issuing stamps.

This book brings together a selection of articles celebrating the anniversary, providing a handy introduction to the stamps and postal history of the Channel Islands.

Great Britain Concise – Coming April 2010

Reserve your copy now to avoid disappointment after the last edition sold out in record time

The Concise lists all Great Britain issues from the Penny Black to the latest issues, including regionals, postage dues, official stamps and booklets. Information for the more specialist collector includes priced listings of specimens, booklets, selected plate and cylinder varieties, errors (including missing colours, missing embossing, imperforates and phosphor omitted varieties) and inverted watermarks.

More 'popular' fields covered include prices for gutter pairs, first day covers, presentation packs, yearbooks, 'Smilers' and much else.

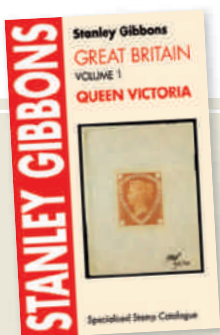

There is a helpful introductory section, providing answers to many of the problems encountered by less experienced collectors, while additional help comes in the form of a full design index and diagrams showing the layout of Machin decimal booklet panes.

Prices are given for both unmounted and mounted mint stamps issued between 1887 and 1935 and on-cover prices are provided up to 1910. All are carefully checked each year to give an accurate easy-to-use guide to British stamps and their values, thus ensuring the continuing popularity of this widely used catalogue.

"There's much more information than in Scott ... very handy to bring to stamp

Specialised Stamp Catalogue Volume 1 – Queen Victoria

This catalogue provides a highly detailed coverage of the British postage stamps of the 19th century, with the line-engraved issues covering over 220 pages. This includes a full account of the introduction of the Penny Black & Two Pence Blue, with details of proofs, essays and trials, many of which are priced. There follow detailed notes on identifying the various plates, alphabets, watermarks, varieties and cancellations, followed by detailed listings of the various stamps, including early use covers and distinctive postmarks.

Similar detail is provided for the embossed and surface-printed issues, as well as the various departmental official overprints, postal fiscals, telegraph stamps and circular delivery company and college stamps.

Specialised Stamp Catalogue Vol 2 – King Edward VII to King George VI

Interest in the stamps of the 'Four Kings' has never been higher, especially as we celebrate the centenary of the accession of the 'Philatelist King', George V.

As with the other volumes in the Specialised series, this catalogue gives a highly detailed listing of the issued stamps along with extensive notes on trials, proofs and essays, detailed plating notes, controls, varieties, shades, specimens and cancelled stamps, booklets, booklet panes, postage dues, officials and much else.

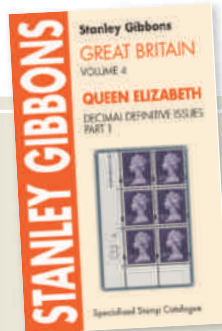

The catalogue has been reset in a new two-column format, to fit a larger page size. The text and illustrations have been much improved and case-binding has been re-introduced after many years. All these changes have been widely welcomed by collectors.

Specialised Stamp Catalogue Volume 3 – Queen Elizabeth II Pre-decimal issues, 11th Edition

The period covered by this catalogue was hugely important in the development of British stamps, seeing both the end of watermarks and the beginning of phosphors, while the number of special stamps grew from eight in the first five years to 120 in the last five!

The stamps of this fascinating period in British philately are exhaustively covered, with booklets and booklet panes, regionals and postage dues all included.

Specialised Stamp Catalogue Vol 4: Queen Elizabeth II Decimal Definitive issues Part 1, 10th Edition

Following advice from many collectors of these ever-popular stamps, it was decided to divide the former Vol 4 into two separate volumes, fast-bound, to match Vols 1 to 3 in this series. This volume includes all sheet and booklet stamps showing the iconic 'Machin' head, apart from the non-value indicator stamps (NVI's) and self-adhesives, which will be covered in the second part, along with regionals, postage dues, greeting stamps and other sections of the previous Vol 4.

This catalogue lists all the Machin definitives issued between 1970 and the end of 2007 (except those mentioned above), with booklet panes and complete booklets in the comprehensive detail which collectors have come to expect over the years. **Part 2 coming April 2010.**

King George VI Stamp Catalogue

This long-awaited new edition of the King George VI stamp catalogue is an invaluable tool to the collector of this extraordinarily popular area of collecting. It is now up-to-date in line with the Commonwealth and British Empire Stamps 2010 and contains definitive information about the stamps of this popular reign.

Editorial changes

Numerous new varieties have been added to the listings since the 2001 edition, most notably watermark varieties – from Aden 29w, the 2½d Victory with watermark inverted, to

Zanzibar 336a, the 30c. UPU with 'C' missing from watermark.

All the newly listed plate varieties are illustrated in colour and include such favourites as the Australia 6d Kookaburra 'Top Hat' flaw and the Gibraltar 2d. 'Ape on Rock'. Other editorial revisions include the expansion of the listings for the 1938 set of the Falkland Islands and the addition of the \$25 Postal, Fiscal of Straits Settlements. The 'thin striated papers' of Bahamas and Malaya are now separately listed and priced and there is an expanded introduction with an illustrated condition guide.

As well as postage stamps, the catalogue lists postage due

stamps, parcel post stamps, official stamps, express and special delivery stamps, charity and compulsory tax stamps, newspaper and journal stamps, printer matter stamps, registration stamps, acknowledgement of receipt stamps, late fee and too late stamps, military post stamps, recorded message stamps and personal delivery stamps.

NEW
 Stamps of the World now includes the invaluable tool 'How to Identify Stamps'

The growth in interest in thematic (topical) collecting has seen the development of a new type of stamp catalogue dedicated to this branch of the hobby.

Stanley Gibbons' first thematic catalogue appeared in 1983 and have subsequently produced nine different titles in the series. These catalogues provide illustrated country by country listings with detailed thematic descriptions. All issues, including overprints and surcharges, depicting the title theme are included, as listed in the 'Stamps of the World' catalogue.

Many of the thematic catalogues in the Stanley Gibbons range also contain highly detailed indexes which not only aid the collector in identification but provide additional information on the subject.

Collect Aircraft on Stamps

Containing over 24,000 stamps depicting aircraft issued by countries throughout the world illustrated in full colour for the first time. Miniature sheets are also included and all stamps and miniature sheets are now individually priced mint and used. Information is provided at the beginning of each country covering geography and relevant currency changes.

Gibbons Stamp Monthly editor, Hugh Jefferies, offers a few thoughts. One of the great things about stamp collecting is that there is no 'right' way to do it. We are all free to collect what we want in the way that we want and, unless you are planning to enter a competition, there are no rules restricting our approach to the hobby.

One of the downsides of this is that, in order to meet the needs of all collectors, there are a vast number of different types of stamp albums to choose from. All have their advantages (and disadvantages), but when you are trying to decide which type is for you, the choice can be quite daunting. Remember also that once you have filled three or four albums, you will be unlikely to want to remount all your stamps, should you decide that your first choice was the wrong one – **so that first decision is very important.**

Basically, albums can be divided by leaf-type and binding method, and there are, of course, a wide range of qualities and therefore prices within each group.

“Stanley Gibbons consistently provides products of the highest quality, with excellent service!”

JOHN E. RANELLETTI, PH.D.
(COLLECTOR)

Stanley Gibbons offers 3 different album types by binding method:

1. Peg-Fitting Albums

These albums offer an incredibly versatile home for your collection, with the 2 pegs holding the leaves in place. Simply pull the lever to release the pegs and insert or extract the pages as required.

2. Springback Albums

These albums feature a sturdy spring that closes shut and holds the contents of the albums in place. To remove the contents simply pull the album left and right to open it slightly.

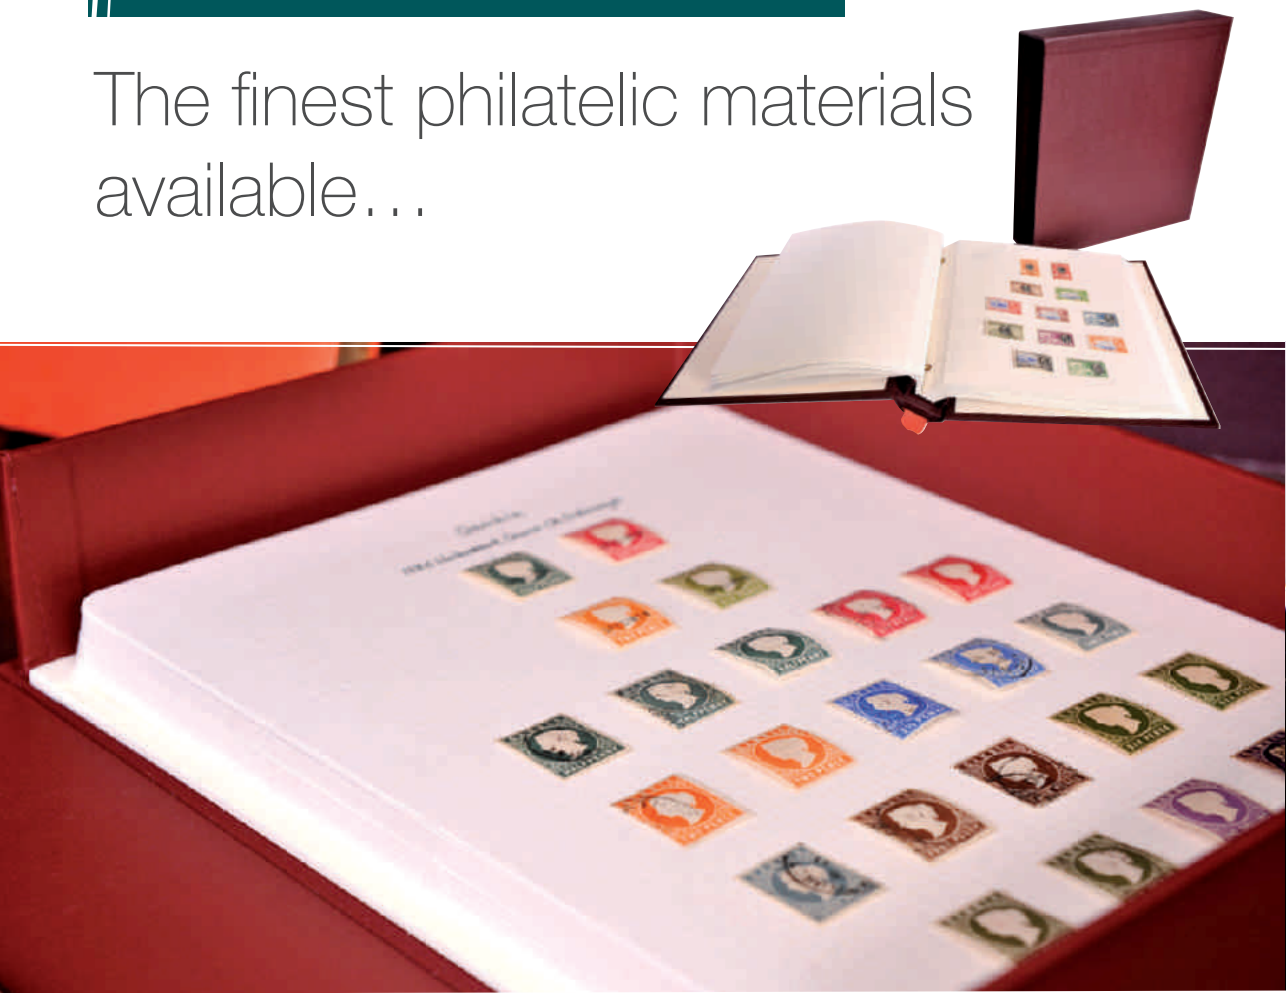

3. Ring-Fitting Albums

These albums allow quick, easy insertion and removal of pages and sheets. Available in 4 or 22-ring options. Please note: To open a 22-ring album safely, you must use the release levers at the top and bottom of the album. Please do not pull the rings apart.
